Step into the past with Battles and Beyond! In this **12-week** program, students will travel back in time to learn about key battles in history. We'll learn about the tactics and strategies used in a specific battle, and imagine what it was like living during that time. We'll divide into small groups and recreate the various battles with different decisions and strategies than the Generals made at that time and see what the new outcome may have been if we fought in the battle.
