REVISED CONTRACT ITEMS

- None

DELETED CONTRACT ITEMS

- None

## **QUESTIONS AND RESPONSES**

### **Question #1:**

The new specification references a number of requirements for powder coating over the galvanizing but I cannot locate any requirement on the contract drawings for the powder coating over galvanized finish. I just want to verify that the rail is to be furnished with a straight galvanized finish, thanks.

### **Response:**

The bridge rail shall be galvanized with powder coating per the Special Provision (Item #094305A – Metal Bridge Rail – Four Rail) Provided in Addendum No. 3.
