NAME / ADDRESS		PROJECT		
Larry Roberts		Library ADA Ramp		
ITEM	DESCRIPTION	QTY	COST	TOTAL
Millwork	To build an ADA compliant handicap access ramp in the community room of the Public Library, along the left wall as one faces the stage. Ramp is to be nominally 8'-9" long with 4" high red oak curbs along both sides, no balustrade, width to be minimum 36" between railing and curb. Continuous red oak hand railing attached to wall, just wrapped on the corner (bottom of ramp) and extending 12" beyond the top of the ramp. All red oak to be varnished, color to match (as best one can) the existing oak flooring. Ramp surface to be non skid textured (like a boat's deck), color to be determined. Ramp to be attached to the stage edge via a type of french cleat, so that it could be removed easily with no hardware protruding beyond the existing nosing. Materials, Labor , includes installation. Sales Tax increase as of 7-1-11	1	3,800.00	3,800.00
			6.35%	0.00
		SUBTOTAL		\$3,800.00
		TOTAL		\$3,800.00
