**Felippo Scandizzo
Administrative Assistant
Weston Land Use
Weston, CT**

Good Afternoon.

Thank you for returning my call.

As you may know, the Public Hearing in connection with the above-referenced Application was continued in order for the Applicant to create/produce a modified plan demonstrating that an expanded septic system would accommodate five (5) bedrooms as opposed to four (4) bedrooms which was listed in the original Application for this proposed Affordable Housing Plan.

My client contacted me last evening and indicated that he wishes to go forward at the PZC Public Hearing scheduled for next Monday evening (July 1, 2024) requesting four (4) bedrooms (the result being one bedroom in each unit) be approved for the Application.

I thought that you should be made aware of these circumstances in advance of the Public Hearing.

Best Regards,

**Lennie Caine
