Re: 61 Old Hyde Road

**RECISION OF ORDER TO APPEAR AND SHOW CAUSE  
BEFORE THE WESTON CONSERVATION COMMISSION**

Dear Mr. and Ms. Jacobs:

On September 4, 2024, I issued an order to appear before the Weston Conservation Commission to explain why you have delayed carrying out the plans for the stormwater retention system designed by your engineer.

Your immediate response and visit to my office today demonstrated a forthright willingness to comply with the requirements of your Inland Wetlands permit. After seeing evidence of good faith, including photographs, a video, and an estimate of the cost of the Cultec system installation, the allegations giving rise to the order are unsupported.

Therefore, I am rescinding the order to appear before the Commission on September 19, 2023.

Please continue to maintain the silt fence in good working order, making repairs as may periodically be necessary. Thank you for working with us to protect water quality in Weston, in the state, and beyond.

Sincerely,

Richelle Hodza,  
Land Use Director and  
Deputy Inland Wetlands and Watercourses Enforcement Officer
