

TOWN OF WESTON PROCESS TO OBTAIN A GENERATOR AND PROPANE TANK PERMIT

To obtain a generator permit in Weston the following steps are to be taken:

1. Obtain a copy of the plot plan for the subject property from homeowner or Building Department.
2. Indicate location of generator and associated propane tanks on the plot plan, keeping in mind the setback regulations are 30' from the sides and rear of the property and 50' from the road (underground propane tanks can be closer to the property line depending on size of tank).
3. Review by the Westport/Weston Health District (203) 227-9571 to ensure conformity to the septic and well setbacks.
4. Zoning Permit for the location of both generator and propane tanks.
5. Building permits for the generator and propane tanks and line.
6. Final inspection and Statement of Compliance by electrician.

All permits applications are available on the Town of Weston website.
