

03/08/2020

Good Afternoon,

Governor Lamont has confirmed the first presumptive positive test for COVID-19 in Connecticut. The patient is a Wilton resident, who most likely became infected during a trip to California. We urge anyone who has travelled to areas with confirmed cases of COVID-19, whether in the US or internationally, to self-isolate for a period of 14 days. This is the most effective way to stop the spread of COVID-19. Should you begin to experience any of the following symptoms; Fever of 100.4 or higher, a cough or shortness of breath, call your healthcare provider immediately for further guidance. Frequent washing of your hands and sound hygiene will help reduce your chances of falling ill. As more information comes available and conditions change we will update you all accordingly.
